ENVIRONMENTAL POLICY

Last reviewed: 1st July 2026

CONTRAFLOW LTD.
the standard for safety, service and support

PURPOSE & SCOPE

Contraflow Ltd takes an ethical approach when managing its activities and their possible impact on the environment and is determined to maintain an excellent environmental record by continually improving environmental performance. The purpose of this Environmental Policy is to set out the Company's commitment to managing its activities in an ethical and environmentally responsible manner. The Company aims to minimise environmental impact, prevent pollution at source, and continually improve environmental performance while balancing business objectives and the needs of employees and the local community.

This policy applies to all business activities undertaken by the Company, including the supply, installation, maintenance, and removal of temporary traffic management systems for our customers. It covers all employees, operations, and processes that may have an environmental impact.

POLICY STATEMENT

Contraflow Ltd. will ensure that the necessary resources are available to enable the company to achieve its objectives and targets. Through the following commitments, the Company aims to operate responsibly and contribute positively to environmental protection while delivering its services. The company will ensure that the necessary resources are available to enable the company to achieve its objectives and targets

a) Meet, and where appropriate, exceed applicable environmental legislation and other requirements such as regulatory codes of practice. An Environmental Legal Register will be retained.
b) Identify the environmental impacts of our business and ensure appropriate operational controls are implemented.
c) Set achievable, measurable, environmental objectives and targets.
d) Reduce energy and resource consumption by encouraging effective and efficient reduction methods.
e) Investigate alternatives to current practices to ensure the most appropriate environmental approach is taken.
f) Encourage and influence (where practicably possible) suppliers and contractors to ensure that the goods and services purchased for Contraflow Ltd are in support of the environmental policy.
g) Inform all customers and suppliers of Contraflow Ltd.'s commitment to reducing its environmental impact.
h) Raise environmental awareness in the workplace and integrate environmental management into Contraflow Ltd.'s communication programs.
i) Aspire to keep a minimum use of chemicals to ensure hazardous and special waste generated is kept to a minimum.
j) To purchase, where possible, materials that originate from sustainable sources.

DELIVERY & COMPLIANCE MONITORING

Progress and performance against these objectives will be monitored through management review processes. The environmental management system is reviewed for effectiveness through conducting internal audits of our policy procedures and operational controls and implementing corrective action where necessary.

The environmental policy is communicated to all employees and is available to the public. The Environmental Policy is reviewed at least annually and updated as and when necessary and any such changes will be communicated to all employees and interested parties.
